Maintenance**

About Me

I am a highly motivated and independent Web Application and Website Developer with over 5 years of experience designing, developing, and maintaining robust web systems. I possess expertise in both front-end and back-end development, working with HTML, CSS, JavaScript, PHP, and MySQL (phpMyAdmin), and managing databases, server configurations, and full project deployments. I have extensive experience in WordPress and custom web applications, complemented by UI/UX design skills using Figma to deliver user-centric, high-performing solutions. Proficient in server and hosting management (DirectAdmin, cPanel), email systems (IMAP/SMTP configuration and migration), and domain/DNS administration, I also provide technical support, troubleshooting, and system maintenance. I am committed to continuous learning, adapting to emerging technologies, and delivering reliable, efficient, and client-focused solutions.

Experience

Software Developer

Trikee Solutions // 2021 - 2026

- Independently developed and managed web applications and websites for the company and clients.
- Built responsive and dynamic systems using HTML, CSS, PHP, and MySQL (phpMyAdmin).
- Designed user-friendly interfaces and implemented functional features based on client and business needs.
- Handled both front-end and back-end development, including database creation and server-side scripting.
- Managed web hosting setup, domain configurations, and deployment through cPanel.
- Conducted testing, debugging, and performance optimization to ensure system stability and efficiency.
- Provided maintenance, updates, and technical support for client and internal systems.
- Created documentation and reports for ongoing and completed projects.

Website Developer / Data Analyst

RBC IT Services // 2019 - Present

- Labeling and categorizing data (text, images, audio, or video) for AI and machine learning projects
- Ensuring data accuracy and consistency according to guidelines
- Reviewing and validating annotated data for quality control
- Collaborating with team members to meet project deadlines

Freelance Web Application Developer

Self-Employed // 2019 - Present

- Built and maintained web applications using HTML, CSS, JavaScript, PHP, and MySQL
- Designed user interfaces and implemented responsive, user-friendly layouts
- Developed backend functionality including database management, CRUD operations, and form handling
- Collaborated with clients to gather requirements and deliver customized solutions
- Tested, debugged, and optimized applications for performance and security
